

SEMI Global Update

June 1, 2021

Market Research

Silicon Wafer Suppliers May Need to Start Greenfield Investments to Meet Growing Demand

After logging record shipments in the first quarter of 2021, the silicon wafer industry may need to start greenfield projects as soon as this year to boost ...

Exhibitions

In-Person Events Staging a Comeback – Reflections on SEMICON China 2021 and a Look Ahead

With the resounding success of SEMICON China 2021, optimism is growing that more physical events will be held with travel restrictions set to ease later this year.

AI-Based Semiconductor Defect Detection

SixSense Automates Visual Inspection to Boost Chip Defect Detection and Classification Accuracy

The simplified end-to-end AI pipeline offered on the platform includes data labelling to make data AI-ready, model training, and model testing.

Diversity, Equity and Inclusion

LGBTQIA+ Visibility and Acceptance in the Chip Industry

According to a 2020 Gallup Poll, 5.6% of U.S. adults now identify as LGBTQIA+, up from 4.5% just three years ago. In 2004, Massachusetts became the first ...
