

首屆「源自德國」歐洲能源管理人員培訓課程圓滿結束 - 落實所學後，可以為台灣減少碳足跡節省 56 萬噸的二氧化碳排量

恭喜 14 名學員圓滿完成首屆「EUREM 歐洲能源專業人員培訓課程」並獲得國際證書!

首屆課程由德國經濟辦事處（GTO）全新推出，時間為 2022 年 2 月至 2022 年 9 月。在過去七個月中，學員們學會識別節能潛力，並習得幫助企業和組織實施高效能源的專業技術知識。德國經濟辦事處首席代表暨處長 林百科先生在 11 月 18 日的結業典禮上說道：「經認證後的歐洲能源管理人員可將所學落實到各企業和機構中。且保守估計，在落實所學後每年可節省電力近 11.5 萬小時，相當於為台灣減少約 56 萬噸的二氧化碳排放量。這不僅代表德國對台灣永續發展及氣候保護的貢獻，更顯示員工培訓能為公司帶來巨大影響。」他繼續說道：「除環境方面，節能也表示為公司節省成本。透過此課程的學習，估計每年平均可節省 4.5 百萬台幣（約 145,000 美元）的營運成本。

期望未來能有更多企業將員工培訓作為其節能減碳的策略核心之一，不但為永續發展做出貢獻，也同時降低營運成本。

明年(2023)的歐洲能源專業人員培訓課程將於 2023 年 2 月 15 日開始，全程為期約七至八個月，共計 145 堂，線上課程每堂課約 45 分鐘。目前課程已開放報名，課程資訊請參考德國經濟辦事處官網: <https://taiwan.ahk.de/eurem-energy-efficiency-training>，歡迎聯繫彭小姐。電話: +886-2-7735-7522

The first course of “ EUREM Energy Efficiency Training Program” is well received in Taiwan

The EUREM is a standardized training of further education, that enhances the skills of technical experts in the field of energy efficiency improvement. German Trade Taipei brings The EUREM programme from Germany to Taiwan, the program is offered in about 30 countries and covers nearly all energy-relevant issues which can arise in companies.

14 participants in Taiwan have successfully completed the training program, which started in February. Over the course of seven months, the trainees learned how to identify energy saving potentials and were provided with the expertise needed to implement energy efficiency modernizations in their companies and organizations.

According to the conservative estimations, the implementations of the taught measures will annually save around 115 MWh, which will reduce CO2 emissions in Taiwan by around 560,000 tons per year. Aside from environmental aspects, the saved energy is worth real money. It is assumed that an average of 4.5 million NT\$ (145,000 US\$) of operating costs can be saved each year. These numbers demonstrate how highly trained employees can make a difference.

Next year's EUREM Energy Efficiency Training Program will start on February 15, 2023. Registration is now open; visit GTO official website for more information:
