What's New at SEMI

Market Research

Global Semiconductor Equipment Billings Increase 9% in Q3 2022, SEMI Reports

"Semiconductor equipment revenue growth in the third quarter remained in line with positive forecasts for 2022," said Ajit Manocha, SEMI president and CEO.

Public Policy

SEMI Commends European Council's Progress on Chips Act, Urges Swift Start of Trialogue Negotiations

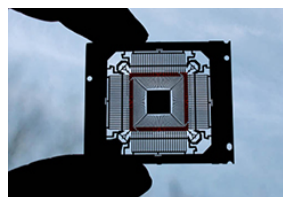

"Europe's future as a region of semiconductor manufacturing excellence is brimming with possibility," said Laith Altimime, president of SEMI Europe.

Sustainability

Key Takeaways From Semiconductor Sustainability Summit at SEMICON Taiwan 2022

"The Executive Yuan has approved the plan to cut greenhouse gas emissions by ...," said Ling-Yi Tsai, Director General of the EPA's Office of Climate Change.

Semiconductor Design

Real Intent on Chip Design and Verification's 'Shift-Left' to Reduce Costs and Cycle Times

Because static verification techniques are focused at the microarchitecture level, they can be applied across various design types without requiring customization.

Standards

Introduction to SEMI's Communication Standards: SECS/GEM

The online semiconductor manufacturing equipment reports the status of the equipment to the factory information system, receives commands from ...
