

INDUSTRY STRATEGY SYMPOSIUM EUROPE (ISS) COMMITTEE

INDUSTRY STRATEGY SYMPOSIUM (ISS) EUROPE COMMITTEE

The **Industry Strategy Symposium (ISS) Europe** is the strategic platform that brings together key stakeholders to help design a way forward to meet the high growth, but rapidly changing, needs of this vital market.

The **Committee** produces a final assessment of the program to highlight the opportunities and challenges and illustrate how we can build on European talent and capabilities, to develop the technology, products and services needed to meet our collective economic, social and sustainability goals.

Committee By-Laws

Eligibility Criteria

One member of staff per company or organization where:

1. Her/his company or organization is a SEMI member.
2. She/he is a senior leader responsible for strategy, R&D, innovation, and has the time capacity to contribute to the committee in a volunteering basis.
3. She/he can publicly represent the position of her/his company or organization towards and speak on behalf the organization at events.
4. The committee reviews nominations and approves on new members.

Committee Structure

1. Selection of chair every two years
2. The Committee may have a maximum of 20 members with no more than one representatives per company.

Committee By-Laws

Expectations for Roles and Responsibilities

All members regularly attend virtual and in-person meetings

1. Bi-monthly virtual meetings
2. Bi-annual in-person meetings at ISS Europe and kick-off meeting
1. Actively involved on the discussion of identifying key topics for the summit
2. All members actively participate on the invitation of senior executives for the presentations and panels equally.
3. In 2022-23, we will hold digital meetings approximately every 2 weeks between September – December, approximately 6 calls.
4. Present at ISS in February and engagement with the rest of the SEMI members. Members split the ISS on-site responsibilities with either session moderation, panel moderation, awards presentation or in other means decided during our planning period.
5. On-site ownership of each session by session owners for formalizing written and closing verbal key takeaways for post show proceedings.
