

What's New at SEMI

Market Research  
**Semiconductor Manufacturing Monitor Points to Moderating Contraction in Q2 2023, SEMI Reports**  
"As the inventory correction comes to an end in mid-2023, a mild recovery is expected ...," said Clark Tseng, Senior Director of Market Intelligence at SEMI.

Market Research  
**Podcast: Electronic System Design Market Update from ESD Alliance**  
The podcast participants discussed the EDMD report data, how it is gathered, and how the report's diverse customer base uses the information to help guide ...

Conference  
**SMC Korea 2023 Opens Tomorrow With Future of Semiconductor Materials, Sustainability in Focus**  
Market forecasts, insights into the latest semiconductor materials developments, and the key role of materials in sustainability will take the spotlight at SMC ...

Sponsored Content

**Reduce the Footprint of Your SEMI S22 Equipment by Leveraging nVent ERIFLEX Solutions for Power Supplies**  
Adopted in high-power semiconductor equipment, nVent ERIFLEX solutions improve reliability and safety while saving assembly time and floor space.

Workforce Development  
**New Semiconductor Industry Hiring Military Events Aim to Help Fill Talent Gap – First in Phoenix on May 31**  
Semiconductor companies at the event will be keen on hiring as they search for professionals with skills honed by many military veterans such as leadership ...

MEMS and Sensors Innovations  
**MSTC 2023 Presentation Preview: Sensors for Improving Air Quality**  
The potential for environmental sensors is very large. A growing body of findings on the effects of exposure to environmental pollution is raising awareness ...

Flexible Hybrid Electronics  
**SEMI FlexTech Invites Proposals for Flexible Hybrid Electronics Innovations**  
The RFP seeks advances in materials, FHE design tools, additive-enabled processing, hybrid electronics packaging, FHE manufacturing, AI/ML ...

Standards  
**New Environmental Performance Rating Task Force**  
The Task Force will also define a fair and transparent system that will simplify the comparison of equivalent energy efficiency and other elements of ...

SEMI-Related  
**Company Starts Receiving Orders for \$1.5-million Flying Vehicle**  
The SD-05 model, developed by airborne car maker SkyDrive Inc., has a range of 10 kilometers and a maximum speed of 100 kph.

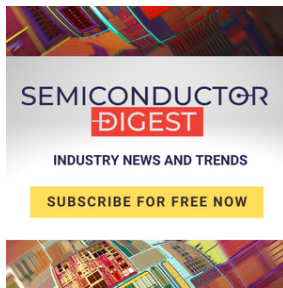

Upcoming Events/Webinars

- May 17 **SMC Korea 2023**  
Suwon-si, Gyeonggi-do, South Korea | Korean Standard Time
- May 18 **ESDA CEO Outlook & Membership Meeting**  
Santa Clara, California | Pacific Time
- May 22 **Training and Upskilling Driving Business Growth**  
Virtual | Central European Time
