

What's New at SEMI

Market Research

Global Semiconductor Packaging Materials Market to Near \$30 Billion by 2027

High-performance applications, 5G, artificial intelligence (AI) and the adoption of heterogeneous integration and system-in-package (SiP) technologies are ...

Exhibition and Conferences

SEMICON Southeast Asia 2023 Opens With Chip Industry Resilience and Growth in Focus

Themed 'Boosting Agility and Resiliency for the Electronics Supply Chain,' the May 23-25 exhibition and conferences are expected to draw nearly 300 exhibitors ...

Conference

MSTC 2023 Opens With Latest MEMS and Sensors Advances in Focus

MSTC 2023 offers a deep dive into how to bring sensor products to market, from design through fabrication and testing and packaging to end-use applications.

*Sponsored Content***New NI Vector Signal Transceiver Offers 2GHz Bandwidth and Frequency Coverage up to 23GHz**

Configure test applications and standards such as WLAN, ultra-wideband, Bluetooth, 5G New Radio and radio prototyping with one versatile instrument.

Appointments

SEMI North America Advisory Board Welcomes New Members From ASML and Breker Verification Systems

"The SEMI North America Advisory Board is committed to broad representation of SEMI member companies," said Joe Stockunas, president SEMI Americas.

Sustainability

Corporate VCs Share Outlook for SEMI Startups for Semiconductor Sustainability Program

James Amano, Senior Director of EHS and Sustainability at SEMI, joined two representatives from the program's corporate VCs for a podcast conversation ...
