VNPT Technology Tour

- Participation: 30 guests, by Registration - only
- Goals of the Activities

1. **Explore Vietnam's Semiconductor Scene:** Discover how VNPT Technology is contributing to the global semiconductor supply chain.
2. **Experience Cutting-Edge R&D and Production:** Tour high-tech R&D facilities and advanced production lines, showcasing modern innovation.
3. **Learn About IoT and Smart City Solutions:** Explore technology applications that support Vietnam's future infrastructure needs.
4. **Support National Digital Transformation:** Understand VNPT's pioneering role in driving digital transformation across Vietnam.
5. **Unlock Opportunities for Collaboration:** Learn about potential partnerships in high-tech industries and the semiconductor sector.
