

ISC Audits & Reviews SC Summary (October 14, 2026)

Doc.	Title	Vote
7314;	New Standard: Test Method For Evaluating The Heat Stability Of Topcon Cells With Finger Paste By Laser-Assisted Firing;	Passed
7363;	New Standard: Test Method For Glutaric Acid Corrosion Of Crystalline Silicon Photovoltaic Cells;	Passed
7364;	New Standard: Specification For Masking Film Of Soldering Ribbon And Busbar For Back Contact Photovoltaic Modules;	Passed
7365;	New Standard: Specification for High-Reflectivity Black Glazed Backsheet Glass For Crystalline Silicon Photovoltaic Modules;	Passed
7369-LI1;	Addition of 310 mm × 310 mm panel size in § 6 and Table A1-1.;	Passed
7453;	New Standard: Specification for 310mm Square Panel FOUP;	Passed
7454A-LI1;	Correct the Infopad layout in Figure 8;	Passed
7455-LI1;	Section 5.4 has been revised, Sections 5.5 “Volume for Fork-Lift Truck” and 5.6 “Volume for PGV Legs” have been added, and Figure?1 and Table?1 have been updated accordingly, with a new Figure?2 added.;	Passed
7462-LI1;	Add SEMI Standard to Referenced Documents Section.;	Passed
7462-LI2;	Correct the sentence to avoid potential misunderstanding.;	Passed
7462-LI3;	Correct Table1 for L and M, and add NOTE for clarification.;	Passed
7462-LI4;	Revise the wording to comply with the Style Manual.;	Passed
7463-LI1;	Correct Table1 for L and M and add NOTE for clarification.;	Passed
7463-LI2;	Revise the wording to comply with the Style Manual.;	Passed
7468;	Revision to SEMI M95-0925, Revision to SEMI M95-0925, Test Method For Net Carrier Density And Resistivity Of Silicon Epitaxial Layer By Capacitance-Voltage Measurements With An Evaporated Metal Schottky Diode;	Passed
R7315;	Ratification Ballot - New Standard: Test Method for PV Modules Intensify Aging In Cold Environmental Conditions ;	Passed
